

Math 15200/14 Homework 6

Due date: Thursday, November 14, 2019, 5pm (in my mailbox in Eckhart basement)

Please present your solutions clearly and in an organized way. Think of it this way: if you show it to another student in this class, he/she should be able to understand it without needing to ask you questions.

## **November 7**

Goals:

- Practice computing with the natural logarithm
- Do integrals involve the natural logarithm

### **Exercises 7.2:**

- 11, 17, 19, 21, 23

### **Exercises 7.3:**

- 1, 3, 5, 17, 31, 33, 37, 39, 41, 47

**This is all for HW 6. No more problems will be added on Tuesday.**
